

Tools & Supply List

This course focuses on learning how to use the Bind-it-All with confidence and creativity. We will be focusing on tool techniques, however, you will be given the creative license to choose themes and papers in creating your projects. Supply lists for the class samples are provided for reference. It is my hope that you will find use for papers and embellishments already in your supply, as well as other “punchable” items.

A modest class kit is needed to complete the projects and is available at a discount to registered students.

Tools & Supplies:

- Zutter Innovative Bind-it-All V2.0
- Wire cutters
- Paper trimmer
- Sanding or distressing tools
- Liquid adhesive, permanent tape runner
- Ink, or chalk to match your paper choices
- Basic supply kit for BIA 101, available at www.binditall.com (click on “Online Classes” and follow the links). Note, many supplies can be improvised from scrap cardboard or other materials if you so choose, though Zutter owire is needed for all projects.
- Optional Zutter tools are made available with a 15% student discount code. Obtain the code after registration in the classroom.

From your stash:

- Scrap chipboard or cardboard pieces
- Selection of cardstock, patterned papers of your choice
- Ribbons, embellishments, anything you have on hand to suit your creative mood and project themes!
